

SAFETY DATA SHEET

Print Date Jun-01-2015 We bring ink to life!

Revision Date May-31-2015 **Revision Number**

Humbe

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product identifier

Product code MMLES - MGL

Product name Mimaki SS2 Compatible Light Magenta

Product category 1302 Series Inkjet Ink

Other means of identification

Synonyms None

Recommended use of the chemical and restrictions on use
Recommended use Printing operations

<u>Details of the supplier of the safety data sheet</u> UNITED STATES

UNITED STATES LiqueColor, Inc. 2108 Research Park Blvd. Norman, OK, 73069 Tel: 1-888-256-7446 www.liquecolor.com

2. HAZARDS IDENTIFICATION

Classification

| Acute toxicity - Oral | Category 4 - (H302) |
|---|---------------------|
| Acute toxicity - Inhalation (Dusts/Mists) | Category 4 - (H332) |
| Serious eye damage/eye irritation | Category 2 - (H319) |

Label elements

Signal Word Warning

Hazard Statements

H302 - Harmful if swallowed

H319 - Causes serious eye irritation

H332 - Harmful if inhaled

Hazards not otherwise classified (HNOC)

May be harmful in contact with skin. Combustible liquid.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixture

| Component | CAS-No | Weight % | Trade Secret | Note |
|---|----------|----------|-----------------|------|
| Diethylene glycol diethyl ether | 112-36-7 | 60 - 100 | * | |
| Gamma Butyrolactone | 96-48-0 | 10 - 30 | * | |
| Ethylene glycol monobutyl ether acetate | 112-07-2 | 1 - 5 | * | |

^{*}The exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

Description of first aid measures

General Advice Show this safety data sheet to the doctor in attendance.

Eye Contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes. Get medical attention if irritation develops and

persists.

Skin Contact Wash off immediately with soap and plenty of water for at least 15 minutes. Remove

contaminated clothing. If irritation (redness, rash, blistering) develops, get medical attention. Remove person to fresh air and keep comfortable for breathing. If breathing is irregular or

Inhalation Remove person to fresh air and keep comfortable for breathing. If breathing is

stopped, administer artificial respiration. Get medical attention immediately.

Ingestion DO NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a

physician or poison control center immediately.

Most important symptoms and effects, both acute and delayed

None under normal use conditions.

Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Foam. Carbon dioxide (CO2). Dry chemical. Water spray. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media

No information available.

Specific Hazards Arising from the Chemical

Thermal decomposition can lead to release of irritating gases and vapors. May emit toxic fumes under fire conditions.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Cool containers / tanks with water spray. Sealed containers may rupture when heated.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions Remove all sources of ignition. Ventilate the area. Avoid contact with eyes, skin and

clothing. Avoid breathing dust or vapor, Evacuate personnel to safe areas. Keep people

away from and upwind of spill/leak.

Environmental precautions

Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. Keep out of drains, sewers, ditches and waterways. Local authorities should be advised if significant spillages cannot be contained.

Methods and material for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Use clean non-sparking tools to collect absorbed material.

7. HANDLING AND STORAGE

Precautions for safe handling

HandlingUse personal protective equipment as required. Do not eat, drink or smoke when using this

product. Ensure adequate ventilation.

Conditions for safe storage, including any incompatibilities

Storage Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from

open flames, hot surfaces and sources of ignition. Keep container closed when not in use.

Keep out of the reach of children.

Incompatible Products Strong acids. Strong bases. Strong oxidizing agents. Reducing agent.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure limits

| Component | ACGIH TLV |
|---|-------------|
| Ethylene glycol monobutyl ether acetate | TWA: 20 ppm |
| 112-07-2 | |

| Component | Ontario TWAEV |
|---|---------------|
| Ethylene glycol monobutyl ether acetate | TWA: 20 ppm |
| 112-07-2 | '' |

Appropriate engineering controls

Engineering Measures Provide a good standard of general ventilation. Natural ventilation is from doors, windows

etc. Controlled ventilation means air is supplied or removed by a powered fan. Users are advised to consider national Occupational Exposure Limits or other equivalent values. In

case of insufficient ventilation, wear suitable respiratory equipment.

Individual protection measures, such as personal protective equipment

Eye/face Protection Wear safety glasses with side shields (or goggles). If splashes are likely to occur:. Wear

suitable face shield. Ensure that eyewash stations and safety showers are close to the

workstation location.

Skin Protection Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls,

as appropriate, to prevent skin contact.

Respiratory Protection If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved

respiratory protection should be worn. Respiratory protection must be provided in

accordance with current local regulations.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice. Wash hands before

eating, drinking or smoking. Wash contaminated clothing before reuse. Avoid contact with

eyes, skin and clothing. Wear suitable gloves and eye/face protection. Regular cleaning of equipment, work area and clothing is recommended.

Revision Date May-31-2015

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical State Liquid Appearance Colored Liquid

Odor Characteristic Odor Threshold No information available

<u>Property</u> <u>Values</u> <u>Remarks · Method</u>

pH No data available

Melting point/freezing point

No data available

Boiling point/Boiling Range > 149 °C / 300 °F
Flash Point 71 °C / 160 °F Tag closed cup (Minimum)

Evaporation rate No data available

Flammability Limit in Air
Upper flammability limit
No data available

Lower flammability limit

Vapor Pressure

No data available
No data available

Vapor Density

No data available

Specific Gravity 0.97
Water Solubility No data available

Solubility in other solvents
Partition coefficient: n-octanol/water
Autoignition Temperature
No data available
No data available
No data available
No data available

Decomposition temperatureNo data availableKinematic viscosityNo data availableDynamic viscosityNo data available

Other Information

Photochemically Reactive No Weight Per Gallon (lbs/gal) 8.06

| VOC by weight % | VOC by volume % | VOC lbs/gal | VOC grams/liter |
|-----------------|--------------------------|--------------|-----------------|
| (less water) | (less water) | (less water) | (less water) |
| 95.86 | No information available | 7.72 | 925.36 |

10. STABILITY AND REACTIVITY

Reactivity

No information available.

Chemical stability

Stable under normal conditions.

Possibility of Hazardous Reactions

None under normal processing.

Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition.

Incompatible materials

Strong acids. Strong bases. Strong oxidizing agents. Reducing agent.

Hazardous Decomposition Products

Thermal decomposition can lead to release of irritating gases and vapors. Carbon dioxide (CO2). Carbon monoxide.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

InhalationThere is no data for this product.Eye ContactThere is no data for this product.Skin ContactThere is no data for this product.IngestionThere is no data for this product.

| Component | Oral LD50 |
|---|--------------------|
| Gamma Butyrolactone | 1540 mg/kg (Rat) |
| 96-48-0 | |
| Ethylene glycol monobutyl ether acetate | 1600 mg/kg (Rat) |
| 112-07-2 | |

| Component | LD50 Dermal |
|--|--------------------|

Information on toxicological effects

Symptoms There is no data for this product.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation There is no data for this product. There is no data for this product. Eye damage/irritation There is no data for this product. Irritation Corrosivity There is no data for this product. There is no data for this product. Sensitisation There is no data for this product. **Mutagenic Effects** There is no data for this product. **Reproductive Effects** There is no data for this product. STOT - single exposure There is no data for this product. STOT - repeated exposure There is no data for this product **Chronic Toxicity** There is no data for this product. **Aspiration hazard**

CarcinogenicityThe table below indicates whether each agency has listed any ingredient as a carcinogen.

| Component | ACGIH |
|--|-------|
| Ethylene glycol monobutyl ether acetate 112-07-2 | A3 |

Numerical measures of toxicity - Product Information

The following values are calculated based on chapter 3.1 of the GHS document

 ATEmix (oral)
 5,836.00 mg/kg

 ATEmix (dermal)
 75,376.00 mg/kg mg/l

ATEmix (inhalation-dust/mist) 76.40 mg/l ATEmix (inhalation-vapor) 560.00 mg/l

12. ECOLOGICAL INFORMATION

Ecotoxicity

None known

0.04% of the mixture consists of components(s) of unknown hazards to the aquatic environment

LWS1302ML - Light Magenta

| Component | Algae/aquatic plants |
|---|---|
